CHANGED BY BOB. Each child born into our world arrives with their own innate brand of intelligence. Before a child grows old enough to stop using his or her active imagination, you can instill positive and beneficial concepts inside them.. In the opinion of the author, children who learn the art of meditation will usually grow into adulthood with an expanded spiritual awareness and will possess the positive psychological tools necessary to help them be successful in adult life. THE ABC'S OF MEDITATION and MORE is designed to help develop a child's innate intelligence by introducing them to elementary concepts of meditation, creative visualization, guardian angels, lucid dreaming, the power of intuition, positive self image, and other beneficial concepts. Meditation can also help to temporarily calm children and reduce their stress level. THE ABC'S OF MEDITATION and MORE is recommended for children between the ages of 7 and 11 and is published by Books That Teach (an imprint of Holographic Books,). Illustrations by Sri Lankan artist Miuru. For additional information, contact: Holographic Books, P.O. Box 101862, Ft. Worth, TX 76185 or call 817-377-3303.
